Tax Facts 2007

current to December 31, 2007

Tax Facts 2007 provides you with a summary of 2007 personal income tax rates and amounts, as well as corporate tax rates (as at July 1, 2007), based on announcements made to December 31, 2007.

What's Inside

Top Personal Rates for 2007 - On page 2 we have set out the top rates in Canada on regular income, dividends and capital gains.

Personal Tax Rates - On pages 3 to 7, we have set out the tax brackets that apply for the year 2007. For ease of use, a section has been provided for each province and territory containing both federal and provincial/territorial rates. This information can be used along with the personal tax credit information on pages 12 and 13 to estimate your taxes for 2007.

Ontario Health Premiums - The health premium tax for 2007 is set out on page 7.

Combined Federal and Provincial/Territorial Tax Brackets - On pages 8 and 11, we have condensed the detailed tax rate information for each province into a chart. You can use the chart that applies to you to estimate your combined federal and provincial/territorial tax liability and to determine effective tax rates on regular income, dividends and capital gains within the income ranges provided.

Personal Tax Credits - On pages 12 and 13, we have set out a summary of federal and provincial/territorial tax credit amounts. Under the tax on income system, a different set of credit amounts will apply federally and in each province and territory.

Quick Estimates - To allow you to quickly estimate your tax liability, we have provided a quick estimate chart on pages 14 and 15.

RRSP, RPP and DPSP Limits - On page 16, we have set out the limits for registered retirement savings plans, registered pension plans and deferred profit sharing plans.

CPP, EI and QPIP Rates - On page 16, we have provided the 2007 Employment Insurance rates and premiums, the 2007 Québec Parental Insurance rates and premiums and the 2007 Canada Pension Plan rates and contributions.

Ontario Health Premium Tax

The Ontario government introduced a health premium tax in its 2004 budget. Unlike health premiums in B.C. and Alberta, Ontario health premiums are based on an individual's taxable income level, similar to personal income tax rates, and the premiums increase at higher levels of taxable income, as set out in the chart below.

Premiums for Ontario Residents	
Taxable Income	2007 and Subsequent Taxation Years
Up to \$20,000	--
\$20,000 - \$25,000	6% of TI** over \$20,000

2007 Combined Federal and Provincial/Territorial Tax Brackets

Use the tables on pages 8 to 11 to estimate your combined federal and provincial/territorial tax and your effective combined tax rates on regular income, dividends and capital gains. Tax rates and amounts include surtaxes where applicable. Reduce the tax by your total federal and provincial/territorial tax credits (see pages 12 and 13). Note that provincial/territorial tax reductions at lower levels of income have not been included.

Notes:

- (1) Except for Québec, the credit is for minor dependants and is subject to a reduction based on child care and disability supports expenses. In Québec, the credit is for an infirm dependant of any age.
- (2) Every senior who resides in Saskatchewan can claim the senior supplementary amount of \$1,097, regardless of their estimated income.
- (3) A complementary amount is added to the basic amount of \$6,650 equal to the greater of \$3,095 and the total of the employee's employment insurance premiums (max. \$584), QPP contributions (max. \$1,990) QPIP premiums (max. \$245) and contributions to the Health Services Fund (max. \$1,000).
- (4) Under Québec's non-refundable tax credit system, certain unused personal credits of either spouse are transferable to the other spouse.
- (5) Québec offers several additional credits, as follows:
- ◆ Individual living alone - credit amount \$1,180; an individual living with an eligible student as a single-parent family may add an amount of \$1,465 if certain criteria is met
 - ◆ Amount for children of full age (18 or older) who are full-time students - \$2,705 with an additional amount of \$230 for the child designated as the first dependant child (if the child is of full age and the individual does not have any children who are minors)
 - ◆ Amount for other adult dependants - \$2,705 (no infirmity test)
 - ◆ Amount for a child engaged in full-time professional training or post-secondary studies - \$1,860 per term (maximum 2 terms); subject to reduction based on proposed amount of 80% of child's income (instead of full amount of child's income).
 - ◆ Amount for a single parent family - \$1,465

Note that the basic amount representing dependent children, the tax reduction for families and the tax credit for child care expenses are now paid to eligible recipients as child assistance payments on quarterly basis.

- (6) The sum of Québec pension credit amount, age amount and living alone amount is subject to a reduction of 15% of family net income over \$29,290.
- (7) The tax credit respecting a dependent child with an impairment was replaced, as of the 2006 taxation year, by an improved supplement for handicapped children. The various measures for natural caregivers of adults will be replaced by a refundable tax credit, as of the 2006 taxation year.
- (8) The Federal Textbook Tax Credit (introduced in 2006) and the Yukon Textbook Tax Credit (new for 2007) has been added to their respective Education credit amount (\$65 per month for full-time; \$20 per month for part-time).
- (9) Québec provides a refundable tax credit with respect to eligible expenses incurred to adopt a child where certain conditions are met. This credit is equal to 30% of the eligible expenses to a maximum credit of \$6,000 per child.
- (10) The federal Children's Fitness Tax Credit (new for 2007) is based on eligible fees for the enrollment of a child under 16 years of age in an eligible program of physical activity. For children under 18 years of age who qualify for the disability tax credit, the federal amount will be based on a higher maximum. Manitoba has indicated that it will parallel the federal credit. Nova Scotia has a Sport and Recreation Activity Tax Credit that has been available since July 1, 2005.
- (11) The new federal Child Tax Credit (new for 2007) will be based on \$2,000 for each child under the age of 18 years at the end of the taxation year. Saskatchewan has a similar credit.
