

# COMMERCIAL INSURANCE LOSS ACCOUNTING SERVICES

Commercial insurance claims are often complex and require a professional, analytical approach to assist in their ultimate resolution. At BDO, we have extensive experience across broad industry lines. Our professionals work seamlessly as part of the loss adjusting team and provide timely, objective reporting.

## Loss experience

Loss accounting expertise is required on many commercial insurance claims, including business interruption, property losses, surety and fidelity, course of construction, and jewellers block. We have experience in many areas of Canadian business, including:

- Mining
- Forest products
- Power generation and distribution
- Consumer products
- Commercial and residential construction
- Food processing
- Automotive

Our professionals have experience in loss quantification, expert testimony, fraud and arson-for-profit investigations, as well as acting as appraisers and umpires.

## Professional services

Over the years, we have accumulated a great deal of specialized experience and skills, which allow us to:

- Prepare an in-depth analysis of relevant loss issues
- Properly assess insurance coverage and its impact in specific loss situations
- Report, on a timely basis, with conclusions that are clear, logical and succinct
- Critique other experts' reports
- Provide financial analysis to assist you at settlement negotiations
- Assist at mediation/appraisal
- Provide expert testimony at arbitration/trial

## Our team

The BDO team is comprised of professionals who are uniquely qualified to assess commercial insurance losses. Our staff includes Chartered Accountants designated as specialists in investigative and forensic accounting, Certified Management Accountants, Certified Fraud Examiners, and those with other specialized accounting designations. This broad range of qualifications and experience enables us to appropriately assign individuals to assignments according to the complexity and expertise required. The result is a cost-effective solution for our clients.
