ENDORSEMENT

- ① In a "Ruling" released by Templeton J, Her Honour concluded that the application for the appointment of a receiver should be granted and directed that the plaintiff's draft order be issued and entered.
- ② It is now late in the day on the 22nd, Court staff could not find the file (it was in Templeton J.'s chambers for some reason) and the order has not been issued or entered.
- ③ A receivership order is a somewhat sensitive document and cannot be dealt with casually. Consequently, I have signed same today in Templeton J.'s absence. It is now after 4:30 p.m. The order may be acted upon now even before being issued and entered.
