

June 2010 Update on Proposal Status

The first distribution in the proposal was released by BDO on behalf of Von Weise on June 11, 2010. This was for employee vacation pay amounts. As referenced in the May update, the funds for hourly employees were sent to the CAW for distribution. We understand that there is approximately a two week turn around with them. Please see the Document section for the June 11, 2010 details. Specific employee amounts have not been posted on the website for privacy reasons.

The next distribution to trade creditors and employees is scheduled in the Proposal no later than August 2010. We expect to issue this second distribution by the end of June.
