## INTRODUCTION

1. On September 25, 2025, 1255261 Alberta Ltd. (previously known as On Site Projects Ltd.) (the “**Company**”) filed a Notice of Intention to Make a Proposal (the “**NOI**”) pursuant to subsection 50.4(1) of the *Bankruptcy and Insolvency Act* (Canada) (the “**BIA**”). BDO Canada Limited (the “**Proposal Trustee**”) consented to act as the Licensed Insolvency Trustee.
  2. On October 23, 2025, the Company filed its proposal and the first meeting of creditors was scheduled for November 6, 2025.
  3. The Company was incorporated in Alberta on July 13, 2006. The shares of the Company are 100% owned by True Works Inc. (“**True**”) and the sole director of the Company is Darin Kresanoski (the “**Director**”).
  4. The Company was a contractor providing maintenance, construction, project management, and related services in Alberta and Saskatchewan, primarily to the oil and gas industry. The Company experienced financial difficulties as a result of a material client failing to pay its account in full. As a result, the Company’s bank terminated its relationship with the Company.
  5. On February 28, 2025, the Company ceased operations. Since February 28, 2025, True has been paying for holding costs of the Company’s various assets including rent for a leased premises located at 501 14 Ave, Nisku, AB, T9E 7P6 (the “**Premises**”).
  6. The purpose of this report (the “**First Report**”) is to advise this Honourable Court of the following:
    - a) the Proposal Trustee’s activities to date, as outlined in this report; and
    - b) the Company’s solicitation process for auction proposals (the “**Asset Sale Invitation**”) to liquidate the Company’s assets (the “**Company’s Assets**”).
- Note, as required by the BIA, the Proposal Trustee is filing a form 40 regarding the results of the first meeting of creditors and will be seeking court approval of the proposal, assuming the creditors vote in favor of the proposal, on November 19, 2025.
7. Furthermore, this First Report, along with the confidential supplement to the First Report dated November 6, 2025 (the “**First Confidential Supplement**”), are being filed in support of the following applications to this Honourable Court scheduled to be heard on November 6, 2025:

- a) The Proposal Trustee's application seeking an order approving this First Report, inclusive of the reported actions and activities of the Proposal Trustee to date, as outlined in this report;
- b) The Company's application seeking an order approving the Company's sale of assets using McDougall Auctioneers Ltd. ("**McDougall**") pursuant to a net minimum guarantee ("**NMG**") proposal received from McDougall (the "**McDougall Proposal**") in response to the Company's Asset Sale Invitation;
- c) the Company's application seeking an order granting a proposed vesting order to allow the Company's Assets to be transferred to any end purchaser(s) after McDougall completes the auction sales, or as otherwise deemed appropriate by the Court;
- d) the Proposal Trustee's application seeking an order sealing the First Confidential Supplement to avoid publicly disclosing the commercially sensitive information detailed therein;
- e) the Proposal Trustee's application seeking an order approving the Proposal (as hereinafter defined); and
- f) an application for an order providing such further and other relief that the Court considers just and warranted in the circumstances.

#### **TERMS OF REFERENCE**

- 8. In preparing this First Report, the Proposal Trustee has relied upon unaudited financial information, the books and records of the Company, and discussions with the Director, interested parties, and the stakeholders of the Company.
- 9. The financial information of the Company has not been audited, reviewed, or otherwise verified by the Proposal Trustee as to its accuracy or completeness, nor has it necessarily been prepared in accordance with generally accepted accounting principles and the reader is cautioned that this First Report may not disclose all significant matters about the Company. Additionally, none of the Proposal Trustee's procedures were intended to disclose defalcations or other irregularities. If the Proposal Trustee were to perform additional procedures or to undertake an audit examination of the financial statements in accordance with generally accepted auditing standards, additional matters may have come to the Proposal Trustee's attention. Accordingly, the Proposal Trustee neither expresses an opinion nor does it provide any other form of assurance on the financial or other information

presented herein. The Proposal Trustee may refine or alter its observations as further information is obtained or brought to its attention after the date of this First Report.

10. Unless otherwise stated, all monetary amounts contained in this First Report are expressed in Canadian dollars.

#### **PROPOSAL TRUSTEE'S ACTIVITIES**

11. To date, the Proposal Trustee has undertaken the following activities:
  - a) assisted the Company in drafting a proposal (the "**Proposal**") to its creditors;
  - b) completed statutory filings in accordance with the provisions of the BIA, which included mailing the Proposal, Notice of Hearing of Application for Court Approval of Proposal, Report of the Proposal Trustee, Statement of Affairs including a list of creditors and amounts owed, and Proof of Claim and Proxy form, to all known creditors;
  - c) reviewed True's security, advances they made to the Company, and repayments of such advances by the Company to them;
  - d) reviewed creditor claims;
  - e) responded to various creditor enquiries;
  - f) assisted the Company in conducting the Asset Sale Invitation process; and
  - g) prepared, reviewed, and filed this First Report and prepared and reviewed the First Confidential Supplement.

#### **ASSET SALE INVITATION PROCESS**

12. During the NOI period, the Company reached out to two (2) auctioneers to sell the assets of the Company (the "**Asset Sale Invitation**"). The Company made requests to:
  - a) Century Services Corp. ("**Century**"); and
  - (a) McDougall Auctioneers Ltd. ("**McDougall**").
13. The Company requested that each auctioneer provide an auction proposal with the following parameters:
  - a) a cash offer;
  - b) a net minimum guarantee ("**NMG**"); and

- c) a straight auction with commission.

The Company provided both auction companies with a list of the Company's assets ("Auction Assets"), attached hereto as **Appendix A**.

14. As a result of the Asset Sale Invitation, the Company received offers/proposals from both auctioneers (the "Auction Proposals") which are detailed in the First Confidential Supplement. Attached as **Appendix B** are redacted copies of the Auction Proposals.
15. The Company reviewed the Auction Proposals and considered the following criteria when evaluating the auction submissions:
  - a) the amount offered and the nature of the proposed auction (i.e., cash purchase, NMG, or straight commission); and
  - b) the estimated monthly costs for insurance, utilities, security, and other related holding costs, which approximate \$22,000.
16. After considering the Auction Proposals, the Company is of the view that the NMG option in the McDougall Proposal provides the best opportunity to maximize recoveries for the interested stakeholders for the following reasons:
  - a) the NMG proposal and the cash offer do not differ by much, and there is a potential upside to stakeholders in the event of a successful auction;
  - b) the McDougall split of proceeds for the NMG is better than Century's split, allowing for a larger dividend to the various stakeholders;
  - c) the McDougall range for sharing on proceeds is smaller than Century's range;
  - d) the NMG proposal is, in the Company's view, expected to exceed the estimated realizations;
  - e) McDougall has experience in selling assets similar in nature to the Company's Assets;
  - f) the McDougall Proposal will limit the ongoing holding costs for the Company's Assets; and
  - g) as the Company is no longer operating it needs a method to dispose of its assets without incurring further holding costs.
17. On October 21, 2025, upon completion of its review and evaluation of the auction submissions, and in consultation with the Proposal Trustee, the Company executed the

McDougall Proposal with the acceptance of the NMG option, subject to obtaining Court approval.

18. On October 27, 2025, McDougall supplied the Proposal Trustee with a 25% deposit on the net minimum guarantee.
19. The McDougall Proposal contemplates holding an auction at the Premises on November 27, 2025 and the Company anticipates vacating the Premises by December 5, 2025, subject to obtaining Court approval.
20. The Proposal Trustee has reviewed both auction proposals independently from the analysis done by the Company and recommends that given the nature of the assets and that the business is no longer operational, the Proposal Trustee recommends that the Court approve the sale of the Company's assets and approve the auction of these assets with McDougall.

#### **RECOMMENDATIONS**

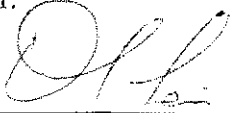

21. Based on the matters outlined in this First Report, the Proposal Trustee respectfully requests that this Honourable Court grant an order:
  - a) approving this First Report, inclusive of the reported actions and activities of the Proposal Trustee to date, as outlined in this report;
  - b) approving the Company's recommendation that the Company enter into an auction agreement with McDougall pursuant to the McDougall Proposal in response to the Company's Asset Sale Invitation;
  - c) granting a vesting order to allow the Company's Assets to be transferred to any end purchaser(s) after McDougall completes the auction sales, or as otherwise deemed appropriate by the Court;
  - d) sealing the First Confidential Supplement to avoid publicly disclosing the commercially sensitive information detailed therein;
  - e) approving the Proposal; and
  - f) providing such further and other relief that the Court considers just and warranted in the circumstances.

Respectfully submitted this 6<sup>th</sup> day of November 2025.

For certainty, no amount of the Gross Auction Revenue less than the Sharing Threshold shall be subject to the Split.

## IV. SPECIAL TERMS AND CONDITIONS

1. The nature of the Assets, and in some cases the combination of Assets, to be included in a disposal can have a significant bearing on the overall appeal of a sale to the marketplace. As such, any changes to the Assets (as set out in Schedule "A" attached hereto) to be included in the disposal

process could change the marketability of the overall disposal sale. Therefore, Century retains the right, in its sole discretion, to amend the terms of this Proposal in such case.

2. For certainty, the Assets shall include all non-fixed, non-fixtured, miscellaneous and sundry assets of every kind ("**Sundry Assets**") on a wall-to-wall, floor-to-ceiling basis that may ultimately carry any reasonable value through an auction process. Century may be willing to reduce their occupancy period to a mutually agreed upon number of days should the Client request so. If the Premises are leased, the Client shall obtain and provide a waiver from the landlord providing for the foregoing. The Client shall be responsible for any and all garbage and waste disposal costs and expenses.
5. ### Sales Approach

We will conduct an unreserved online timed auction sale on November 27<sup>th</sup>, 2025, or an agreed upon date with the Company. It is recommended that the Assets sell where they are currently located as it will eliminate any excessive freight costs.

Once we are given access to the Premises, we will begin to have the rolling stock cleaned and detailed. After the cleaning and detailing is has been completed we will then strategically catalogue the Assets to enhance the opportunity of extracting their maximum value. Once this is complete, the lots will be posted online for a period of 21 days to ensure maximum exposure and will end in sequence on November 27<sup>th</sup>, 2025. The sale will be advertised as an “Unreserved cts 125561 AB Ltd. Complete Dispersal Sale”. A 3-day preview period will be held at each location prior to the closing date of the auction for public inspection and a 5-day release period will be held once the auction is terminated to allow the winning bidders the opportunity to pick up their items.

### Company Overview

McDougall Auctioneers has conducted both live and online auction sales for the past 44 years and offers you an exceptional background of auction experience. Our firm's mission statement is "To provide our customers, both buyers and sellers, with the highest level of professionalism, service, honesty and integrity in a family atmosphere." We believe we emphasize this in the manner in which we conduct business and look forward to working with your firm throughout this auction sale.

Our website is one of our most powerful tools in the advertising field. We have serviced throughout North America and around the world for the past 44 years and we have built up an incredible following for live and online-timed auction sales. At the time of listing, McDougall will take photographs and videos for marketing purposes that will be posted on our website at [www.mcdougallauction.com](http://www.mcdougallauction.com). Our website generates tens of thousands of hits per day and generates many proxy bids and endless interest. Of course, with the real time internet bidding, the scope of market is worldwide and puts the equipment on a worldwide marketplace. Our track record of strong net sales results backs up our marketing strategies as well as our knowledge of how to conduct a solid and profitable auction.

We would highly recommend the consideration of conducting this auction sale for the Assets of the Company on our high-profile online auction platform [www.mcdougallauction.com](http://www.mcdougallauction.com). There are many advantages to conducting the sale of the Assets with our firm. With our yard locations, professional staff and marketing strategies, we will achieve the most favorable financial results.

Our online auction platform is set up with a "10 Minute Soft Close" which is standard throughout all our online auctions. If a lot is scheduled to close at 12:00 noon and a bid is entered at 11:59, the scheduled closing time will be extended by 10 minutes, this will continue to occur if there is ongoing bidding taking place. We have designed our website this way to prevent any snipe bidding which consequently levels the playing field for all parties involved, as demonstrated in a live auction sale.

The sale will be featured and advertised as an exclusive "Unreserved 125561 AB Ltd . Complete Dispersal Sale". We believe it is important to convey to the potential customer, that we are selling quality Assets of a long standing good reputable company. This sale will be featured as its own exclusive online auction event and advertising the business name is key to gaining the confidence and liberal bidding of the potential buyer.

We are one of the very few auction houses in Canada to own and develop an auction program which handles all payments, applicable taxes, etc. facilitating an efficiently run online auction sale. McDougall offers a secure online payment platform backed by Moneris as well

as direct Registration as a Payee to most financial institutions. We accept all the traditional methods of payment i.e. wire transfers, cash, approved company cheques as well.
